

2010 Curriculum

A Surgical & Prosthetic Study Group

COURSE GUIDE

Courses Held:
Downtown San Francisco

February 4-Thursday Evening

"That looks like a tooth! How to make an implant supported crown look natural"
Kirk Pasquinelli, DDS

March 6- Saturday All Day Lecture & Hands-On

"Hands-On Implant Surgical Training & Implant Provisionalization"
John C. Minichetti, DMD, David Eshan, MD, DDS, Matthew Young DDS, Jerry Peck DLXT and Study Group Faculty

April 22 Thursday Evening

"Implant Surgical and Restorative Principles & Practical Procedures"
William Liang, DDS

May 21 Friday All Day Lecture

"Taking Your Implant Therapy to the Next Level: Surgical and Prosthetic Techniques & Diagnosis"
Dr. Peter Hunt

June 10-Thursday Evening

"Managing Implant Complications"
David Ehsan, MD, DDS

September 30-Thursday Evening

Dental Implants From Z to A; Letting your final prosthesis guide your surgical approach
Perry H. Fraiman, DDS

November 4-Thursday Evening

"Advancing Your Implant Practice with 3D Planning"
Matthew R. Young, DDS

Study Group Faculty

Director – Matthew R. Young, DDS is a graduate from the State University of New York at Buffalo. He is a General Dentist in private practice, in San Francisco, CA. He completed a General Practice Residency program at Albert Einstein Medical Center in Philadelphia, PA and serves there as an attending. Dr. Young is a credentialed member of the American Academy of Implant Dentistry and an Officer in its District. He is a Diplomate in the International Congress of Oral Implantology and lectures nationally and internationally on Implant Dentistry.

Kirk Pasquinelli, DMD received his doctorate in dental surgery from the UCSF and completed a one year hospital based GPR at Mount Zion Medical Center. He received his periodontal training at the University of Washington, graduating in 1987. He has held teaching positions at Mount Zion, UCSF, University of Pacific and currently at the IDEA in Foster City. He has authored numerous articles and lectures national and internationally. Since 1988 Dr. Pasquinelli has maintained a private practice in downtown San Francisco limited to periodontics and dental implants.

John C. Minichetti, DMD is a graduate of University of Medicine and Dentistry in New Jersey. He is a General Dentist in private practice, in Englewood, NJ. Dr. Minichetti places and restores 500 implants annually. He is a Diplomate of the American Board of Oral Implantology, Chairman of the American Academy of Implant Dentistry Study Club Program, Attending at Englewood Hospital and Director of the Bergen County Implant Study Club. Dr. Minichetti has published numerous papers on implant dentistry and lectures nationally

Dr. Hunt Dr. Hunt combines the innovative technology with sound scientific principles pushing implant dentistry to the next generation. He is a 4th generation dentist that originally trained in Great Britain at Guy's Hospital. He came to the United States in 1973 and attend the University of Pennsylvania School of Dental Medicine where he obtained specialty certificates in both Periodontics and Periodontal Prosthesis. Dr Hunt practices in Center City Philadelphia and lectures nationally and internationally on implant dentistry and occlusion.

Dr. Fraiman is a prosthodontist who practices in Surprise, Arizona. After completing dental school at State University of New York at Buffalo, Dr. Fraiman completed a general practice residency at Albert Einstein Medical Center, Philadelphia, PA where he also served as chief resident. Dr. Fraiman completed a post-graduate residency in prosthodontics at University of Medicine and Dentistry of New Jersey. Dr. Fraiman has held teaching positions at U Penn dental school and UMDNJ and currently lectures nationally on the topics of dental implants and various prosthodontic procedures.

David Ehsan, MD, DDS is a graduate of University of the Pacific and University of Nebraska School of Medicine. He is an Oral/Maxillo-Facial and Implant Surgeon in private practice, in San Francisco, CA. Dr. Ehsan is dual board certified in OMFS and dental anesthesiology. He is member of numerous dental and medical organizations. Dr. Ehsan is the immediate past president of San Francisco Dental Society. He lectures and is published on implants, advanced bone and soft tissue reconstruction, lasers, and CT based implant placement.

Jerry Peck, DLXT has been providing diagnostic images to the dental and medical communities of the San Francisco Bay Area for over 30 years. Mr. Peck received radiographic training the University of the Pacific School of Dentistry. Nearly 30 years ago, he became the owner-operator of C-Dental X-Ray, Inc, and is U.S. distributor of the iDent 3-D implant planning system. He remains at the forefront of dental and maxillofacial radiographic technologies. He has lectured to the dental communities of universities including, UCSF, UOP, UCSD and USC. His commitment to dental imaging has driven its advancement, particularly with CBCT technology.

Robert Quinn, DMD, MSD is a graduate of Tufts University School of Dentistry and earned his Orthodontics degree at the University of Connecticut. He is a Board Certified member of the American Association of Orthodontics (AAO). He practices in San Francisco and Fairfield and has over 25 years of experience. He has served on the faculty at UCSF where the students honored him twice with "Most Valuable Professor" awards. Dr. Quinn has authored numerous scientific papers and has lectured extensively across the nation.

DR. WILLIAM LIANG Dr. Liang attended the University of British Columbia and received his Doctor of Dental Medicine degree in 1983. He is a Diplomate of the American Board of Oral Implantology/ Implant Dentistry and a Fellow in the Academy of General Dentistry and is an officer of the Western District of the AAID. He is the founding director of the Canadian Dental Implant Training Centre. Dr. Liang practice in Vancouver, Canada and lectures nationally and internationally on implant dentistry.

OUR MISSION

To promote implant education of the surgical, restorative and laboratory disciplines through practical procedures, science based diagnosis and treatment planning and hands-on training.

MEMBER BENEFITS

- Career track mentoring by AAID credentialed members
- Heightened level of patient care
- CE credits for AGD & state requirements
- Literature Reviews & Home Study Materials
- Credit towards bona fide credentials
- Educated brainstorming for diagnosis & treatment planning
- Professional growth through AAID membership
- Lower introductory rate of AAID membership dues
- Prestige of training with an AAID Affiliated Group

Courses

“That looks like a tooth! How to make an implant supported crown look natural”
Kirk Pasquinelli, DDS
Thursday Evening February 4, 2010

- In this course you will learn:
- Soft Tissue Surgical Implant Management
 - Implant Restorative Effect on Soft & Hard Tissue
 - Guiding Soft Tissue Utilizing Implant Provisionals
 - Proper Fabrication of Final Implant Crowns

“Hands-On Implant Surgical Training & Implant Provisionalization”
John C. Minichetti, DMD, David Eshan, MD, DDS, Matthew Young DDS, Jerry Peck, DLXT and Study Group Faculty
Saturday March 6, 2010-All Day

- In this course you will learn:
- Basic to Advanced Implant Surgical Principles
 - Immediate Implant Placement & Provisionization
 - Hard & Soft Tissue Considerations
 - Hands-On Bone Grafting & Implant Surgery
 - Understand Guided Surgery and 3D Planning
 - Hands On Implant Provisionalization

“Implant Surgical and Restorative Treatment”
William Liang, DDS
Thursday Evening April 22, 2010

- In this Course you will Learn:
- Decision Making on Case Complexity
 - Implant Dentistry in the Esthetic Zone
 - Practical Surgical and Restorative Techniques

“Taking Your Surgical & Restorative Practice to the Next Level”
Dr. Peter Hunt
May 21, 2010 – All Day

- In this course you will learn:
- Evolution of Implant Dentistry and Future Trends
 - Hard & Soft Tissue Requirements for Implant Dentistry
 - Principle of Implant Surgery
 - Emergence Profile for Final Restorations
 - Procedures for Predictable Implant Restorations
 - CAD/ CAM Technology and its Effect on Dentistry

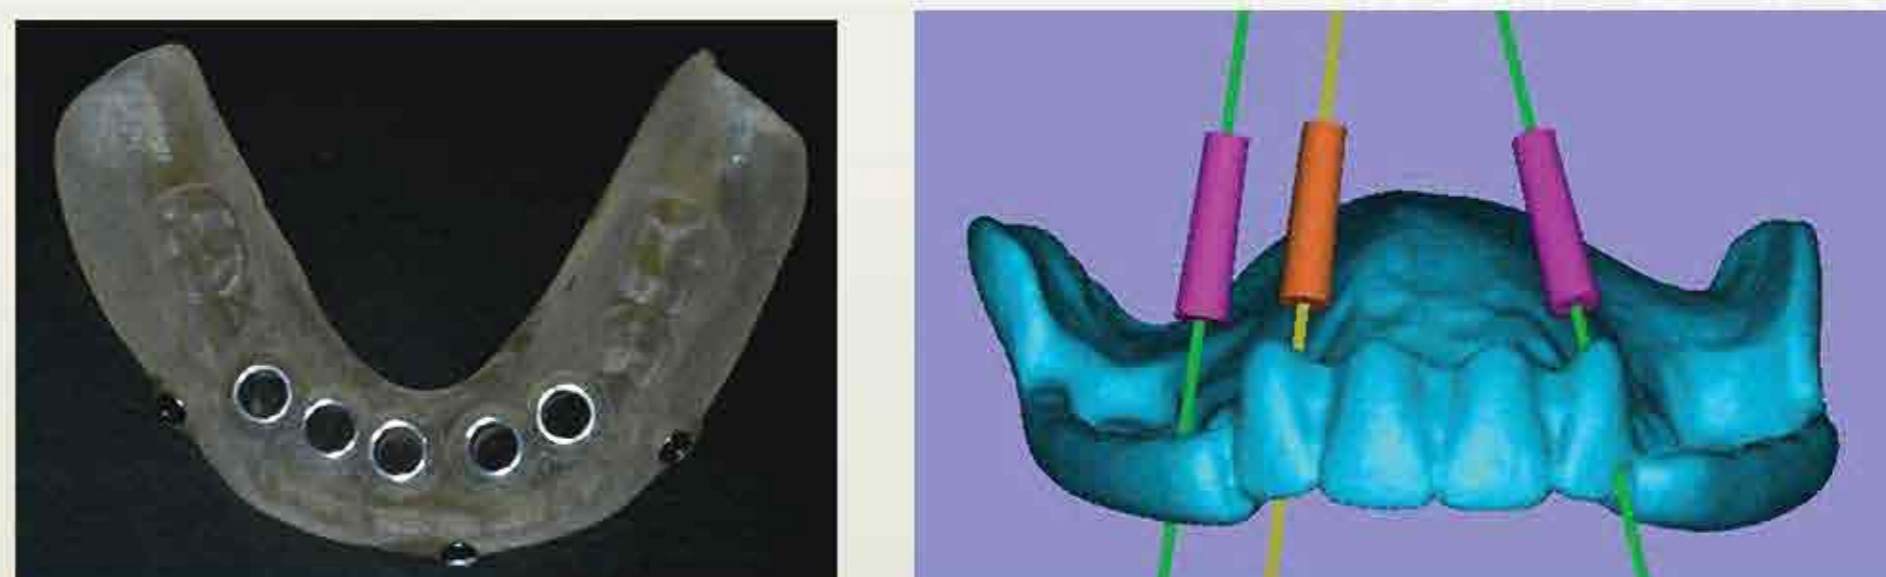

“Managing Implant Complications”
David Ehsan, MD, DDS
Thursday Evening June 10, 2010

- In this course you will learn:
- Causes of Implant Complications and How to Avoid Them
 - Understand How to Diagnose an Implant Complication
 - Managing the Ailing and the Failing Implant

“Dental Implants From Z to A; Letting your final prosthesis guide your surgical approach”
Perry H. Fraiman, DDS
Thursday Evening September 30, 2010

- In this course you will learn:
- Understand the importance of proper planning of implant restorations, and how it affects the surgical placement of dental implants.
 - The use and design of surgical guides and diagnostic wax-ups
 - What to bill patients for, and what not to

“Advancing Your Implant Practice with 3D Planning”
Matthew R. Young, DDS
Thursday Evening November 4, 2010

- In this course you will learn:
- Simplified Approach to Understanding 3D Planning
 - Plan Cases from Diagnostic Workup to final Restoration
 - Understand 3D Planning and Guided Surgery
 - Discuss Pertinent Research and Practical Procedures
